ABOUT

TopG CEO has been created by experienced developers in BSc to pay homage to the TopG that is **@cobratate**.

Whilst we have no affiliation with the Tate brothers at the present moment we have plans to create a partnership using donations generated through our trading taxes to support the charities the TopG donates to with a heavy focus on supporting Andrew Tates upcoming charity to protect men from false accusations. Built within our smart contract we have created a charity wallet named the TopG Foundation which can be tracked here.

Supporting charities and forming a partnership with the Top G himself is a big part of our plans but we also want the holders of **\$TOPG** to become filthy rich and that's why we have incorporated BITCOIN rewards within our smart contract!

Ultimately TopG CEO has been designed to be somewhat of a community driven fan token of the TopG Andrew Tate. If you're a fan then join us on our journey to become the Alpha of all meme coins on BSC.

NFT COLLECTION

We're excited to announce that very soon we will be launching our own NFT (Non-Fungible Token) Collection!

As we continue to develop TopG CEO ecosystem and expand our offerings, we recognize the growing importance and interest in NFTs within the blockchain community. Our NFT Collection will feature unique and high-quality digital assets that will be available for purchase with TopG CEO tokens.

We believe that our NFT Collection will not only provide a new way for our community to engage with and support TopG CEO, but also contribute to the broader growth and adoption of NFTs. We're committed to ensuring that our NFTs are not only visually stunning but also serve as valuable assets for our holders.
